

Oracle® Data Migration Consultant / Senior Data Migration Consultant

Multiple Locations throughout North America!

BackOffice Associates, LLC is a fast-growing provider of software and consulting services to global corporations. We perform business critical services associated with corporate ERP systems. We have developed a proven product-line, process and reputation for uncompromising success. We are looking for an energetic, self-directed, committed and goal-oriented individual with the desire to join a world-class organization.

Position Summary:

In this position you will be responsible for participating in data migration activities that include data analysis, reporting, conversion, harmonization and business-process analysis as a member of a BackOffice Associates® Data Migration Team.

Applicant must be well experienced with Oracle® in general and an expert in specific business-process areas. This position is integral in the performance of data migration activities for a specific process thread while driving communication with client SMEs and Business-Process Experts for data migration activities.

This is a Full Time position.

This position requires only physical activity associated with office routines, as well as the ability to travel on a weekly basis to locations within the United States and abroad. This is a 100% travel position.

Qualifications:

- 2 to 5 Years Oracle Functional or Techno-Functional experience; 1+ full Oracle implementation lifecycle(s)
- Expert level functional knowledge in one or more of the following Oracle EBS areas: SCM, Asset Management, Financials, HCM, Procurement, PLM, CRM and / or Manufacturing
- EBS development and knowledge of Oracle systems integration, EBS Interfaces, Oracle Forms / OA Framework is a plus
- Demonstrated experience in migrating data from legacy into Oracle EBS, including proficiency in data analysis, data quality and conversion planning for data migration activities
- Experience using various Oracle diagnostic tools to pinpoint and troubleshoot issues
- Significant experience writing, deploying and troubleshooting Oracle PL/SQL
- At least three (3) years experience on IT projects
- 2 to 5 years Business-Process experience
- Bachelor's degree in Business, Engineering, Computer Science or other related analytical or technical disciplines, or at least four (4) years related experience
- Proficient in Microsoft® SQL: SQL query skills, comprehensive understanding of SQL Table structure and an understanding of relational databases
