BackOffice Associates to Exhibit Full Suite of Data Governance Solutions at SAPPHIRE® 2008 Orlando Conference

Newly launched Data Governance solution cLite™ to be showcased

ORLANDO, FL – May 5, 2008 – BackOffice Associates, LLC, a global leader in Data Migration and Data Governance solutions in support of SAP® solutions, today announced it will participate in the SAPPHIRE® 2008 Orlando conference, SAP's premier business technology event taking place May 4-7 at the Orange County Convention Center. BackOffice Associates will exhibit at the conference in booth #1712.

BackOffice is launching an accelerated Active Data Governance solution called “cLite.” Building on BackOffice's Collaborative Master Data Governance Suite™ (cApps™), cLite delivers simplified, accelerated Active Data Governance. This solution is based on the successes of BackOffice's large, referenceable install base of Data Governance customers. cLite will offer an accelerated deployment cycle for customers wishing to implement a data governance model within a 30 to 60 day time frame.

BackOffice Associates offers two models of data governance, “Passive” and “Active.” These data governance solutions for use with SAP solutions encompass end-to-end data governance activities including: Data Audits, Boring Go Live® migrations, Passive Data Governance using DataDialysis®, and Active Data Governance (cApps). cApps now in production at customer sites worldwide include: cMat™ (Collaborative Materials Maintenance), cCust™ (Collaborative Customer Maintenance), cVend™ (Collaborative Vendor Maintenance) and the newly launched cLite. cApps now released and available for early adopters include: cLedger™ (Collaborative Ledger Maintenance™), cPrice™ (Collaborative Price Maintenance™), and cEmp™ (Collaborative Employee Maintenance™) with more solutions available soon.
